

Attitude Determines Altitude

Effort Rank Order

How does it work?

- The attitude score is made up from the V, G, S and U grades on your monitoring report.
- All V grades would be 100%; all U grades would be 0%.
- Your Rank Order Position indicates where your attitude score places you in relation to the rest of Year 11.

Why are we doing this?

Your effort, and your overall attitude to learning, is the single biggest factor in your success in your studies. We want you to challenge yourselves to demonstrate the best possible attitude to learning.

What next?

Your next report comes out in January 2015 following your mock exams. You have six weeks.

- Can you improve your attitude between now and then?
- Can you improve it by more than everyone else, and move yourself up the rank order?

We'd like you to try!

Every accomplishment
starts with the
decision to **try.**

A Growth Mindset at Chew Valley
